HIGH CLASS DRUGGISTS

AND — OTHERS.

The better class of druggists, everywhere, are men of scientific attainments and high integrity, who devote their lives to the welfare of their fellow men in supplying the best of remedies and purest medicinal agents of known value, in accordance with physicians' prescriptions and scientific formula. Druggists of the better class manufacture many excellent remedies, but always under original or official names and they never sell false brands, or imitation medicines. They are the men to deal with when in need of anything in their line, which usually includes all standard remedies and corresponding adjuncts of a first-class pharmacy and the finest and best of toilet articles and preparations and many useful accessories and remedial appliances. The earning of a fair living, with the satisfaction which arises from a knowledge of the benefits conferred upon their patrons and assistance to the medical profession, is usually their greatest reward for long years of study and many hours of daily toil. They all know that Syrup of Figs is an excellent laxative remedy and that it gives universal satisfaction, and therefore they are selling many millions of bottles annually to the well informed purchasers of the choicest remedies, and they always take pleasure in handing out the genuine article bearing the full name of the Company—California Fig Syrup Co.—printed on the front of every package. They know that in cases of colds and headaches attended by biliousness and constipation and of weakness or torpidity of the liver and bowels, arising from irregular habits, indigestion, or over-eating, that there is no other remedy so pleasant, prompt and beneficial in its effects as Syrup of Figs, and they are glad to sell it because it gives universal satisfaction.

Owing to the excellence of Syrup of Figs, the universal satisfaction which it gives and the immense demand for it, imitations have been made, tried and condemned, but there are individual druggists to be found, here and there, who do not maintain the dignity and principles of the profession and whose greed gets the better of their judgment, and who do not hesitate to recommend and try to sell the imitations in order to make a larger profit. Such preparations sometimes have the name—"Syrup of Figs"—or "Fig Syrup"—and of some piratical concern, or scilicet fig syrup company, printed on the package, but they never have the full name of the Company—California Fig Syrup Co.—printed on the front of the package. The imitations should be rejected because they are injurious to the system. In order to sell the imitations they find it necessary to resort to misrepresentation or deception, and whenever a dealer passes off on a customer a preparation under the name of "Syrup of Figs" or "Fig Syrup," which does not bear the full name of the California Fig Syrup Co. printed on the front of the package, he is attempting to deceive and mislead the patron who has been so unfortunate as to enter his establishment, whether it be large or small, for if the dealer resorts to misrepresentation and deception in one case he will do so with other medicinal agents, and in the filling of physicians' prescriptions, and should be avoided by every one who values health and happiness. Knowing that the great majority of druggists are reliable, we supply the immense demand for our excellent remedy entirely through the druggists, of whom it may be purchased everywhere, in original packages only, at the regular price of fifty cents per bottle, but as exceptions exist it is necessary to inform the public of the facts, in order that all may decline or return any imitation which may be sold to them. If it does not bear the full name of the Company—California Fig Syrup Co.—printed on the front of every package, do not hesitate to return the article and to demand the return of your money, and in future go to one of the better class of druggists who will sell you what you wish and the best of everything in his line at reasonable prices.

Over \$2,000,000.00 Saved!

About two years ago the American Newspaper Association announced that it had secured control of the new 20th Century Edition of the Encyclopaedia Britannica, and would supply that famous set of books at Less Than Half Price, and on easy monthly payments amounting to only 10 cents a day. Our announcement brought thousands of applications for sample pages and full particulars, and the demand became so great that all available sets of the books were soon exhausted. The largest book manufacturing in the United States found it impossible to keep pace with the demand, and we were notified to accept orders only for future delivery, which resulted in disappointment to thousands of our customers.

About one year ago our contract was renewed because of our great advertising and distributing facilities. At that time we insisted on the same price and the same easy terms as before for our customers. The phenomenal result has been that

49,376 Sets

of the Encyclopaedia Britannica have been ordered, representing a saving to our subscribers of over Two Millions of Dollars! The great saving in price, the easy monthly payments and the undoubted merits of the Encyclopaedia Britannica explains the cause of this unprecedented demand.

Price Soon to Advance.

On account of the increased cost of materials used in the manufacture of books and the increased cost of labor, it has become necessary to advance the price of the Encyclopaedia Britannica at an early date to cover the extra expense. We have, however, arranged that this increase in price shall not go into effect until the edition just off the press has been distributed.

We therefore give fair warning to all, that Prompt Action is necessary to secure this kind of all encyclopaedias at the lowest price and on the easiest terms of payment.

For more than one hundred years the Encyclopaedia Britannica has occupied the foremost rank as a self-educator and work of reference. At intervals new and enlarged editions of the work have been published, thus keeping pace with the progress of the world. The new 20th Century Edition, which we now offer, occupies 31 magnificent volumes, containing nearly 25,000 pages, and covers every department of knowledge known to mankind.

That some sort of an Encyclopaedia is a necessity all must acknowledge. That the great Britannica is the very best none will deny. It is an Encyclopaedia in which each principal subject is treated by an acknowledged authority upon that subject. No other Encyclopaedia has given Ten Thousand Dollars for a single article or Six Hundred Dollars a Page for written matter. The fact that \$3,000,000 were expended in its preparation, requiring the labor of 2,000 of the world's greatest scholars, tells the story of its exalted superiority.

One dime a day for a short time will secure this great work. Who cannot spare 10 cents a day? There is no further excuse for not owning this great reference Library. Take advantage of this offer now Before It Is Too Late, and secure the work at

Less Than Half Price.
